

International Summer School on Hybrid (bio) Nanostructures

The organizing committee invite you to participate in the International summer school on hybrid (bio)Nanostructures, which focusses on hybrid organic-inorganic materials containing biomolecules or having bioinspired structures.

This summer school will allow to broaden knowledge in different types of materials, from oligonucleotides based structures to liposomes, silica constructs and soft matter.

Informazioni**Organize by:** Università di Sassari - University of Strasbourg

Luogo: Santa Chiara Building, Alghero

Dal: 3 September, 2019

Al: 7 September, 2019
