2021 International Summer School on Natural Products ISSNP: 6th – 8th July virtual school

.The school is designed for PhD students and young researchers and aimed to build up a lively scientific community tackling global challenges in the field of natural products.

Strategical objectives will be focused on interdisciplinary and intersectoral learning, networking and cross collaborations.

A combination of lectures, seminars and interactive sessions will provide an immersive and challenging experience and team-based problem solving activities will help the participants to be prepared for future research studies in these fields.
