*Under the patronage of SCI-Electrochemistry Division and ISE-Division 3*

# Bridging two centuries of electrochemical energy storage and conversion

**In honor of Roberto Marassi**

The aim of the Symposium is to honor the scientific career and the prominent role in the development of electrochemistry of Prof. Roberto Marassi of University of Camerino, who passed away in 2019.

His major Italian and international collaborators and alumni will gather to highlight the influence of his research activities and inspiring ideas toward the most recent achievements of the energy storage and conversion community.

The link to join the Symposium will be accessible at [www.unicam.it/symposium-marassi](http://www.unicam.it/symposium-marassi)  
Live streaming will be available on the youtube channel **Videounicam**

**4<sup>th</sup> - 5<sup>th</sup> February 2021**

**Detailed program available at [www.unicam.it/symposium-marassi](http://www.unicam.it/symposium-marassi)**
